

Unteach the Overreach

International Day of Action on October 12, 2023

Join parents across the United States, Canada, the UK, and globally to send a message that **parents' rights are civil rights** by taking action!

Options include emailing elected officials, picketing, passing out flyers, holding an forum, filing a lawsuit, starting an advocacy group, announcing your candidacy for public office, or keeping your children out of school on October 12, 2023.

Whether it is allowing boys to compete on girls' sports teams and enter their private changing spaces, teaching gender ideology as truth, or secretly changing student names and pronouns without parental consent, schools are increasingly overstepping their bounds and ignoring parents' concerns.

We are sending a message that **enough is enough**. Parents are the primary educators of their children and should be respected!!

**Schools aren't listening to parents.
It's time that they did.**

**Take Action To Fight Gender
Ideology in Schools
on October 12, 2023!**

For more information or to get a letter for this excused absence go to:
